

FLOOR STAND FOR MAGNIFYING LAMP

Assembly Instructions

ASSEMBLY

This lamp stand comes complete with all its parts in a box; 2-piece Base, 1 Support Bar, 4 Swivel Casters, 2 Base Brackets, 4 Lock Washers, a Knob, 2 Nuts, and a Wrench.

To assemble the stand, follow the instructions below.

Place one lock washer on each caster and thread the casters into the pre-drilled holes on both ends of the two base pieces. Using the wrench provided, tighten the nut and attach the casters to the base pieces as shown in figure-1.

Figure-1 Installing the casters

Cross the two base pieces with the cut-outs, in the middle part of both pieces matching as shown in figure-2.

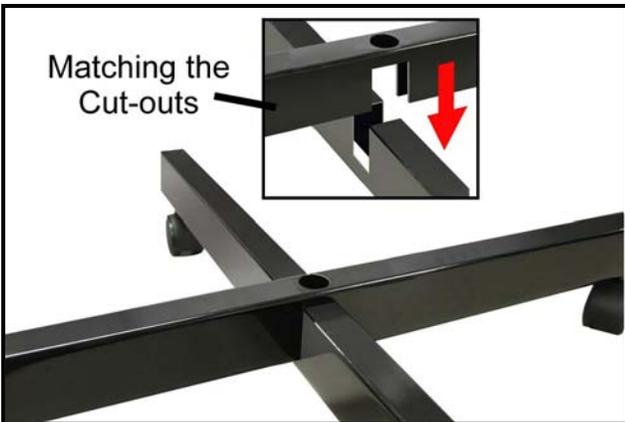

Figure-2 Attaching the two base pieces

Place one of the two base brackets on the base with the hole on the bracket aligned with the one on the base. See figure-3.

Thread one of the two nuts provided onto the threaded end of the support rod and insert the support rod through the hole on the bracket and the base. See figure-3.

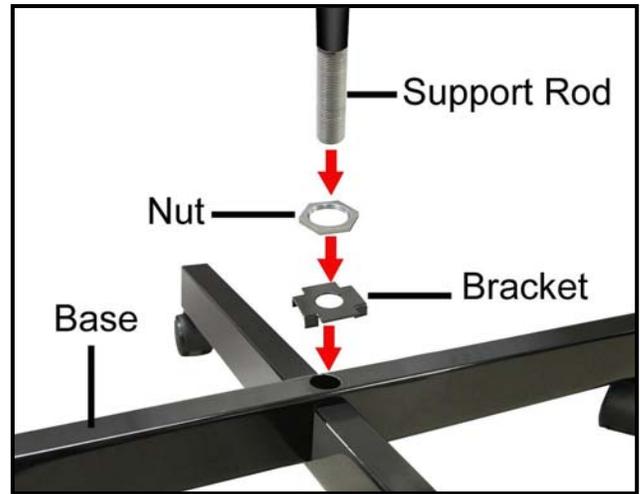

Figure-3 Attaching the bracket, nut and support rod

Turn the base upside down and place the second base bracket and the knob with the rod passing through the holes on both. Thread the second nut onto the support rod until the nut is into the knob and tighten the nut properly using the knob. See figure-4.
